

What is Transition?

“Engaged Optimism”  
“Self Reliance”  
“Permaculture”  
“Sustainable Lives”

# What is Transition?

Communities coming together  
to re-imagine and re-build our world

- # Stepping up by Starting Local,
- # Caring for Each Other & the Planet,
- # Making a change in ourselves, then
- # Making Community-led Economic Change, and
- # Telling our Stories so Others Benefit.

## Our Method

**The Head:** act on the best information and evidence and apply our collective intelligence to find better ways of living.

**The Heart:** work with compassion, paying attention to the emotional, psychological, and social aspects of the work we do.

**The Hands:** turn our vision and ideas into a tangible reality, initiating practical projects to build a new, healthy economy.

## Our Principles

Reduce Emissions and Reliance on Fossil Fuels

Promote Inclusiveness and Social Justice

Promote Devolved Local Decision Making

Be a Experimental, Learning, Sharing Network
