

# FEELING SEEDY?

*Join the Hume Seed Library for these great events on Saturday 14th March 2020*

10 AM - 11 AM

## **Volunteer Working Bee**

Come and join us and some friendly locals to help fold, fill and organise our seed packets for the library.

We've said from the very start that we can't do this without you so just bring yourself and swap gardening tips while helping us top up our display.

We look forward to meeting you on Saturday morning in the non-fiction section, ground floor.

11:15 AM - 12 PM

## **Summer Seed Saving**

Join Thanisa and Christie from the Hume Seed Library to learn about saving and storing your summer veggie seeds with confidence, assuring an even bigger and stronger crop for next summer.

Bring some excess produce, cuttings or seeds from your garden for the harvest swap table and get to know other budding gardeners. Please register for this event via eventbrite to ensure your seat.
